

Invitation

Farmers/Youth Training Workshop

Hosted by the Agricultural Research Council-Animal Production Irene.

Workshop date: 04 -08 November 2019.

The workshop is the first of its kind to be hosted by ARC-AP, Animal Breeding and Genetics Unit, for Farmers and postgraduate students to learn in the field of genomics, breeding, and genetics. This will be a great opportunity to meet with students, and senior and junior scientists (national and international).

Presenters: Prof. Mahlako Makgahlela, Dr. Avhashoni Zwane, Prof. Juha Kantanen, Prof. Catarina Ginja, Prof. Donald Kugonza, Prof. Nasser Ghanem and Prof. Richard Crooijmans.

The OPTIBOV project focuses on global research and development programs focusing on indigenous Animal Improvement. The aim of the project is to improve the production and survival of indigenous breeds adapted to the local environments in Africa. This will allow us to secure the future of these well-adapted traditional/indigenous local breeds.
